Note This!

In Prescriptions We Give the Highest Quality and Charge the Lowest Prices.

Your Physician Gets the Best Results From Prescriptions Filled Here.

There's but one element common to all prescriptions—good and bad—and that's the formula. There are different ways of compounding—the scientific way and the careless way; then different drugs are used—excellent and inferior ones; then there's fancy prices and moderate prices. If there's one department we are justified in calling perfect it's our Prescription Department.

Careful compounding—the freshest and best drugs obtainable—in prices that are not exorbitant, like "so-called" prescription prices. Our volume of business both make the claims possible and prove them to be true.
